

Stand-Up Pouches

LPF stands up for your products

LPF

A Clondalkin Company

FLEXIBLE PACKAGING

About us

LPF is part of the international Clondalkin Group, an international producer of high value added packaging products and services. Our focus on the requirements of our customers has led to several market leadership positions in Flexible- and Specialist Packaging.

As one of the 45 production companies, LPF Flexible Packaging specialises in high barrier packaging for Food-, Pharmaceutical- and Horticultural markets. Our customers benefit from the strong financial position of our Group, inhouse extrusion of CPP and PE and the security of contingency manufacturing.

Stand-Up Pouches

LPF is an experienced producer of high quality stand-up pouches. Our expertise with high barrier laminates, printing and with retorting and pasteurization processes has allowed us to develop the perfect retortable stand-up pouch for a wide range of concepts. Optimal oxygen barrier guaranteed! We can supply pouches made from a wide variety of materials such as PET-SiOX, Aluminium, PET-MET, Polyamide, Cast Polypropylene or Polyethylene. Our pouches can be supplied on reels for VFFS machines or pre-fabricated, including zippers, spouts, cool grips, laser easy opening or other fitments.

LPF's Stand-Up Pouches add value

Stand-up pouches offer differentiating and efficient shelf presentation, great transport efficiency resulting in lower costs and environmental benefits, consumer convenience and moreover: Stand-up pouches can command a higher price in stores! All our stand-up pouches are offering several benefits to consumers as well as producers: Perfect printing quality, retortable up to 121 degrees Celsius, microwaveable, easy to open. We produce pouches for products such as ready meals, soups and sauces, body and healthcare products, pet food and many more.
